

S. RODGER WALTERS EDUCATIONAL SCHOLARSHIP

Rodger graduated from Altoona Area High School in 1968 and Penn State University in 1971 with a degree in Engineering. He was chief operating officer at Makdad Industrial Supply, where he was employed for 39 years. He was the “go-to guy” for many area HVAC contractors needing technical help. He was a longtime member of the Refrigeration Service Engineers Society, and he served as educational officer for the local Horseshoe Curve chapter. He served on numerous educational councils for local vocational schools and was a judge for many refrigeration competitions. His wife said that he was very interested in the education of young people. This is why she started the memorial scholarship in his name.
